## IDRASTU ROL 04

*Binders and Fillers in Aqueous Dispersion*

### APPLICATION

---

**IDRASTU ROL 04** is a product designed to mask the surface defects of leather such as scratches, brands and others. It is applied with poure roll generally before grinding or on previously frosted leathers that will be, after the application of the product, re-fried in order to remove the excess product.

The results are to obtain a very smooth and uniform surface ready to be finished for bottalabile printed leathers. The main features are an excellent adhesion and retention of printing while maintaining the elasticity of the leather, it is also easily grindable. It is used for the production of printed and soft bottalate correct-flowered leathers such as buffaloes or large cows for furniture or clothing.

### PRODUCT CHARACTERISTICS

---

APPEARANCE	: Whitish fluid
SOLID CONTENT	: c.a. 24.5%
SPECIFIC GRAVITY	: 0.7 g/l
PHASE	: Aqueous
pH	: 7.5-9.5
STORAGE	: 12 months. 5-35°C. Protect from frost.
NOTE	: Shake well before use
